

TUNE IN EXPANDING ACCESS TO MEDIA

OPEN MEDIA
FOUNDATION
2016 ANNUAL REPORT

LETTER FROM THE EXECUTIVE DIRECTOR

At the heart of the Open Media Foundation is our mission to use communications to empower underrepresented communities to more effectively influence public awareness and public policy. We recognize commercial media as a root-cause of inequity in society, and view emerging and evolving communications technologies as tools to help level the playing field. Our team of communications experts is dedicated to ensuring disadvantaged communities and the organizations serving them have access to the best services, training, and tools they need to shape public awareness and public policy.

Ten years ago, OMF launched Denver Open Media, a community TV station with a revolutionary model for letting the people of Denver effectively run their own TV network. By far the most ambitious Public Access endeavor in the nation to launch without operating support from the local government or cable providers, DOM lets viewer votes determine the programming schedule, putting the community in the driver's-seat like no other station in the world.

One decade later in 2016, we took another major step in bolstering the community media landscape in Denver by launching Denver Open Media 104.7fm, the first Radio station ever dedicated entirely to Denver-Metro music, news, comedy and podcasts. Launched in partnership with Denhac, Denver's first hackers' collective, this new radio station was integrated into the denveropenmedia.org website, where community members can listen and vote on thousands of files submitted for the radio station alongside videos submitted for TV. Just like our TV stations, your votes determine the programming schedule on the air.

Thanks to our friends at Denhac and a handful of dedicated volunteers, we were able to launch one of the most innovative community radio stations in the nation, with a total budget of only \$25,000. It was one of our greatest accomplishments of 2016, made possible by our community through a successful kickstarter. On behalf of the board and staff of OMF, I want to extend my gratitude to everyone who helped make it possible. The following pages will highlight a broad range of work in 2016, with a particular focus on this important new resource. If you haven't already gotten involved, please consider volunteering for 104.7fm by sending an email to radio@openmediafoundation.org

WHAT WE DO HOW WE DO IT

WHAT WE DO

The Open Media Foundation (OMF) is an innovative media and technology nonprofit organization dedicated to putting the power of the media in the hands of the people, enabling everyone to engage in their community and bring about the change they wish to see in the world.

HOW WE DO IT

We empower nonprofits, governments, and individuals to shift the media conversation (and thus social awareness) from the corporate interests of our commercial media system towards the human interests of an open, diverse, engaged public. To accomplish our mission, we begin with providing affordable, high-end media and technology services.

We follow up by offering training and tools that enable everyone to represent their own voice in the media conversation.

RADIO FACT

93% of all Americans over age 12 listen to radio each week. Radio remains the most accessible source of news, information, and entertainment.

HIGHLIGHTS & ACCOMPLISHMENTS

2016 HIGHLIGHTS

With over 100 nonprofit and government clients, and hundreds of individuals served through our Training and Tools programs, it's challenging to summarize all the great work done at OMF in 2016. Below are a few of our favorite highlights for the year:

SERVICES

VIDEO:

BookTrust: Book Trust wanted something special for their annual fundraiser, and "Unlocking Imaginations" was a smash hit, winning OMF the 2016 Videographer Award of Excellence.

Pop Culture Classroom: In 2016, OMF was privileged to build an arsenal of videos for the organization that brings us Denver's ComicCon, and so much more. [Video 1](#), [Video 2](#), [Video 3](#)

Peak Academy: Denver's Peak Academy has helped countless government agencies transform their work for increased efficiency and impact. These videos make the impacts of process improvement clear. [Video 1](#), [Video 2](#), [Video 3](#)

Strong Colorado: Featuring Governor Hickenlooper, Speaker of the House Crisanta Duran, and Senator Kerry Donovan, this video encouraging voter turnout across Colorado has over 25k views on Facebook.

WEB:

Early Care and Education Map: Building on our successes working with Shift Research Lab and The Piton Foundation, we followed a comprehensive stakeholder engagement process to develop another invaluable online tool.

STAR Institute: is a multi-faceted organization, needing a unique web presence that combined several websites into one. OMF's client-centered approach included our web team spending a day with the children at STAR to better grasp and reflect the impact of STAR's work.

The Civic Network: OMF teamed up with The Civic Canopy to develop this online platform making collaboration among professional groups easier and more accessible through maps, data visualization, and more.

TRAINING

Partnered with Pop Culture Classroom: to bring a Visual Storytelling: From Comics to the Screen after-school workshop at Girls Athletic Leadership School

Youth Media Generation: after-school program participants showed their films at Denver Comic Con

Opened the Open Media Lab: which allows members of Denver Open Media to get extra assistance on their multimedia projects and presents a monthly topic of instruction.

TOOLS

All New Website: 2016 saw an all-new website for Denver Open Media. The updated [Reservations System](#) and website is mobile-responsive with new features, a new logo, and stunning images of our dynamic community.

104.7FM Radio: In partnership with our friends at DenHac, OMF launched a 100% local FM radio station for denver musicians, podcasters, community new reports and more!

4K Cameras: DOM got 8 new 4K cameras from Panasonic and JVC in 2016, free for Equipment Access Members!

Many thanks from OMF and Denhac for the overwhelming response to our Kickstarter campaign! Some achievements made over the past year include:

- Installation of radio broadcast transmitter and antenna
- Development of in-house system for automated radio scheduling
- Design and build of a mobile remote broadcast units
- Deployment of streaming web service for full year of broadcast

Please help us spread the word and find more local content providers and underwriting support to keep our airwaves hot. We look forward to collaborating further with Denver's local, indie and DIY scene in the coming year.

We're Denver Open Media radio. The low powered station with the high-powered mission!
