### Hybrid Meetings for City Councils

Small municipalities like [City of Hood River](#) have figured out how to hold hybrid city council meetings - with people able to participate in-person and virtually.

Using Zoom as a hub for their meetings and simple tools like a webcam and adapters for their sound system, this solution is both inexpensive and effective.

Since Zoom streams to YouTube Live, the solution works perfectly with our [Open Media](#) software-as-a-service government transparency portal.
