NEW INTERN ALERTS!!

"Hello! My name is Sereñite and I'm a senior at Denver south high school. I joined this internship because I love meeting and hearing local music and artists so this was just a no brainer. I'm super excited to learn more about radio and all the behind the scenes that goes on in order to play great music daily for the public."

"Hi my name's Jazmyne. I'm a recent graduate from CU Boulder. I'm excited to be a part of the Denver Open Media internship program because they're giving me the opportunity to learn more about audio production and the inner workings of a radio station. I hope to be able to use the skills I learn to one day become a podcast producer."
