GOVERNMENT

Clear Creek County, CO on Open.Media

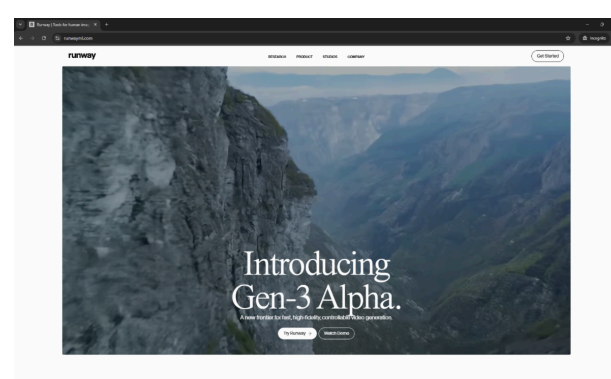

[Clear Creek County](#) is located along the continental divide in northern Colorado. It was one of the original 17 counties created by the Colorado legislature on November 1, 1861. It is one of only two counties with original boundaries unchanged, the other being north adjacent Gilpin County. It was named after Clear Creek, which runs down from the continental divide through the county. Idaho Springs was originally designated the county seat, but the county government was moved to Georgetown in 1867. The population was 9,397 in the 2020 census.

VIDEO PRODUCTION AI

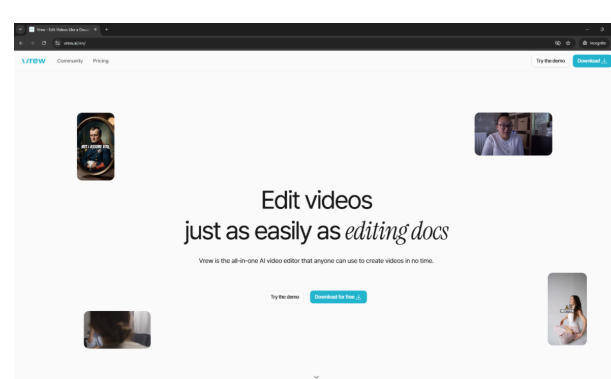

Artificial Intelligence Applications To Explore

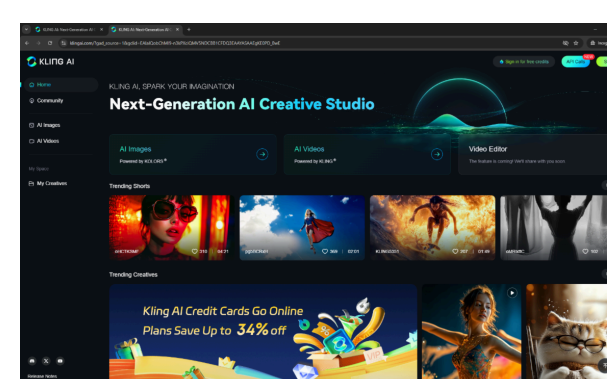

Runway Runway Studios is the entertainment and production arm of Runway, dedicated to producing and funding films, documentaries, printed publications, music videos and other media. The tools provide fast, high-fidelity, controllable video generation. Runway is advancing research in AI systems that can understand and simulate the world and its dynamics.

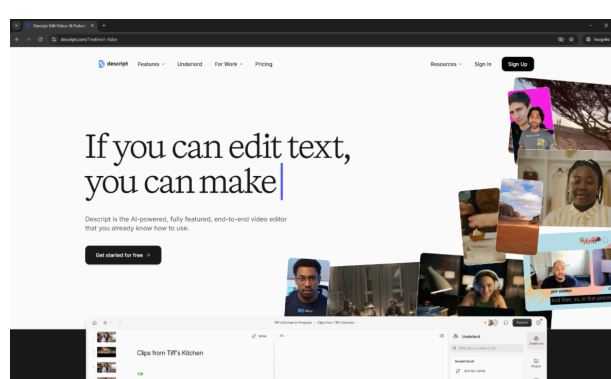

DreamMachine Dream Machine is an AI model that makes high quality, realistic videos fast from text and images. It is a highly scalable and efficient transformer model trained directly on videos making it capable of generating physically accurate, consistent and eventful shots. Their goal is to build a universal imagination engine available to everyone.

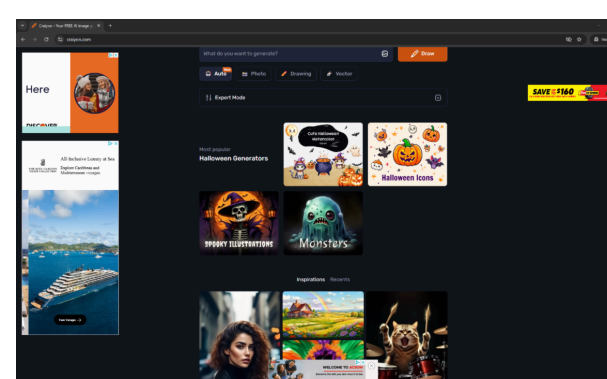

Vrew Vrew is the all-in-one AI video editor that quickly creates videos. Vrew's AI can analyze the audio of an uploaded file and display it as editable text. It can also search for words and edit clips, just like you'd do in a document or presentation. It can also automatically generate subtitles from an uploaded file.

Kling Kling AI utilizes advanced 3D space-time attention and diffusion transformer technologies to accurately model movements and create imaginative scenes efficiently.

Descript Descript AI is a video editor that works like docs and slides. It can edit audio and video by editing text with cut, copy, and paste. Typed words get generated in your voice using AI speech. It arranges visuals like a slide deck and uses templates to quickly make videos that look good.

Craiyon Craiyon is an AI art generator that creates unique images from text prompts. It uses machine learning to generate new images that don't exist in the training data.

CAREER ENGINE

Media Job Opportunities

Our [Open Media Career Engine](#) is a service offered to Employers in the Media & Journalism sector to help you find and hire more diverse jobseekers. This program has helped over 40 employers in Colorado's Media & Journalism field hire POC jobseekers at more the double the industry average. We help craft your job description to appeal to diverse applicants, post it to over 20 job boards proven to generate more diverse jobseekers, and manage the screening process so that even the smallest HR team can afford a broad and inclusive hiring process developed by industry leaders.

Email careers@openmediafoundation.org to explore how the OMCE can help you with your next hire.

ANNOUNCEMENTS

Thanksgiving is on Nov 28th

Thanksgiving is a national holiday in the United States and Canada that celebrates the harvest and other blessings of the year. It is always celebrated on the fourth Thursday of November. It is a time to give thanks and gather with family and friends. Typical food served includes turkey, stuffing, potatoes, cranberries, and pumpkin pie.

Thanksgiving originated from a 1621 harvest feast attended by some Wampanoag Native people and the English Pilgrims who colonized Plymouth, Massachusetts.

Native American Heritage Day is on Nov 29th

Native American Heritage Day is a day celebrated on the Friday following Thanksgiving. The day is dedicated to honoring the cultures, traditions, and contributions of Native American and Alaska Native people across the United States. It is a time to recognize the rich heritage and tribal sovereignty of indigenous Americans.

Many Native American cultural traits are celebrated across American society. Concepts of respecting nature and living in harmony with it and the emphasis on community and collective decision-making are wide spread in Native cultures. People everywhere regularly eat indigenously cultivated foods like corn, tomatoes, chiles, beans, squash and potatoes. Aspects of the Iroquois Confederacy's government structure are also seen as influencing the US Constitution.
